

Are you tired of traffic? Is the long commute to work making you crazy? Well, **Commuter Services** is here to help.

**Commuter Services** is the regional commuter assistance program of the Florida Department of Transportation (FDOT). The program is dedicated to improving South Florida's traffic conditions through the promotion of alternatives to the Single Occupancy Vehicle (SOV).

**Commuter Services** can show you how to save money on your daily commute by ridesharing. *You may ask yourself...what is this ridesharing?* Ridesharing simply means two or more people sharing a ride. Carpooling, vanpooling and mass transit are all examples of ridesharing. What is in it for you? How about cutting your commute costs by at least half! Commuter Services offers a variety of **FREE** services including a 24-hour call center, tri-county transit information, computerized rideshare matching, and an Emergency Ride Home (ERH) program.

*How does the Emergency Ride Home program work?* Employees who rideshare or use transit at least three (3) times a week can receive up to six (6) **FREE** taxi rides home per year, in case of sickness, unscheduled overtime, or personal emergency. Simply register with us and we will get you going!

Remember all of these services are provided by the Florida Department of Transportation and are completely **FREE** to you!
